

VICTORY UNIVERSITY OF BANGLADESH
DEPARTMENT OF BUSINESS ADMINISTRATION

Course Profile

Master OF BUSINESS ADMINISTRATION
COURSE TITLE: Management Information System
COURSE CODE : MIS 641

Description

This course helps students see the connection between information systems (IS) and business performance. The use of information and communication technologies (ICT) by individuals and organisations dominates the business world. There is a fundamental change going on in the way that organisations run businesses and interact with each other. New types of infrastructure and applications are developed and utilized such as ERP (enterprise resource planning), IOS (inter-organisational systems), RFID (radio frequency identification), CRM (customer relationship management), to name a few.

Course Objectives

The aim of the course is to enable students to assess the opportunities and problems that managers in a wide range of organisations face as they attempt to use these IT applications to add value to their businesses. It also aims to help students understand transformational changes within and across industries. These changes have strategic implications for many businesses.
