

VICTORY UNIVERSITY OF BANGLADESH
DEPARTMENT OF BUSINESS ADMINISTRATION

Course Profile

Master OF BUSINESS ADMINISTRATION
COURSE TITLE: Strategic Management
COURSE CODE : MGT 681

Description

This course introduces the key concepts, tools, and principles of strategy formulation and competitive analysis. It is concerned with managerial decisions and actions that affect the performance and survival of business enterprises. The course is focused on the information, analyses, organizational processes, and skills and business judgment managers must use to devise strategies, position their businesses, define firm boundaries and maximize long-term profits in the face of uncertainty and competition. Strategic Management (BUAD 497) is an integrative and interdisciplinary course. It assumes a broad view of the environment that includes buyers, suppliers, competitors, technology, the economy, capital markets, government, and global forces and views the external environment as dynamic and characterized by uncertainty. In studying strategy, the course draws together and builds on all the ideas, concepts, and theories from your functional courses such as Accounting, Economics, Finance, Marketing, Organizational Behavior, and Statistics.

Course Objectives

The purpose of this course is to enhance your ability to do the job of a general manager responsible for strategic performance. Specifically, to integrate the different functional areas of business (e.g. accounting, finance, human resources, information systems, marketing, operations management, etc.) into a cohesive whole. The challenge is not only in identifying weaknesses and threats facing firms we will study, but to appreciate the strengths of the firm and anticipate opportunities in the external environment. Your role in this course is to correct organizational failures and expand upon organizational successes, however failure and success may be defined. As an MBA student in this course, your goal should be to draw upon course learning, as well as applying your previous business experience, to think beyond the role of any given functional area.

TextBooks

1. Grant, R.M. (2005) *Contemporary Strategy Analysis*, 5th ed., Blackwell Publishing
2. Hitt, M., Ireland, D., Hoskisson, R. (2004) *Competitive Startegy: Competitiveness and Globalization*, 6th ed., Cengage Learning.
