Semester final

Answer to the question no:1

William Shakespeare is a dramatist who is famous in the history of drama of all the time. He is the national poet of England. He is called bird of avon. Macbeth is a tragedy of William shakes peare of five acts. It was written in 1606-1607 and published in 1623. Macbeth and Banquo who are the generals serving the Scotland by the king Duncan. The generals won the war and the king Duncan wa very happy of the generals great victory.

Lady Macbeth is a important character of the tragedy by the Shakespeare. He uses numerous characters to develop the downfall of Macbeth. Characters such as Lady Macbeth is one of the most significant protagonists in the play as she manipulated Macbeth to find his quest in becoming the king. Lady Macbeth portrays herself as a hubris character who believed that nothing could stop her as she expressed the spirits to “unsex” her femininity to be released from her body (Act 1, Scene 5, Line 44). Thus, although it is surmised that Lady Macbeth had poor judgements and only desired the best for her husband, she was ultimately ambitious, scheming and cruel which indicates that she is a woman who does not earn the audience’s pity and deserved her fate. Various elements analysed in this study are

determined and understood through Lady Macbeth's ambition to be queen, her behaviour towards Macbeth and the blood on her hands that proved her guilt.

The three witches have a important role in the tragedy of Macbeth. The prophecy of the witches plays a important role in the pchychology of general Macbeth. When Macbeth got victory in the war that time Macbeth was very happy and the witches caught Macbeth mentally. We know every human being have greed to gain anything like designation, honour and wealth. So the witches used the greed situated inthe human inner side. Macbeth who was a simple general and doing his own works properly . but when he meet three witches then he changed and got distance from his own passion of professionalism. The general Macbeth was deeply influenced by the witches prophecy. We know witches are very bad pluncet, here Macbeth is a wise man but he did not understand the bad intention of the prophecy of witches.

Lady Macbeth is a prime character of Macbeth tragedy. When lady Macbeth heard the witches prophecy from the Macbeth she feels greedy to be the queen. A woman can not be queen personally. If anyone want tobe queen she have to be the wife of the king. If Duncan still alive as a king the lady Macbeth had not the quality of being queen. So the lady Macbeth was trying to make Macbeth king as she could be the queen of Scotland.

The greed to being queen made lady Macbeth blind for the power and being hnoured. So lady Macbeth was excited for making the master plan to kill the king Duncan.

The king Duncan who was very merciful to the general Macbeth. King Duncan made Macbeth the thane of Glamis. Macbeth could save the king Duncan from the master plan of his wife's killing mission. But in that situation he was not capable to influence his wife by positive thinking. When King Duncan came to the Macbeths' house then he was the guest of Macbeths' house. We know the guests are more respected to the host than the people of neighbourhood and regular relative. But in the Macbeth what we saw, the real scenario is opposite of the normal happenings.

The mastermind of King Duncan's killing mission is Lady Macbeth. The Macbeth was not able for killing Duncan in his own house or anywhere but his wife influenced him to do that type of worst work. So there is a cruelty in the inner side of the Lady Macbeths' mind.

She is also full of diplomatic thinking, she made drunk of the guard of King Duncan and then started her killing mission. She was thirsty for the power, honour and wealth, she got it and last those were the curse on her and her family.

Afterward, however, Lady Macbeth begins a slow slide into madness—just as ambition affects her more strongly than Macbeth before the crime, so does guilt plague her more strongly afterward. By the close of the play, she has been reduced to sleepwalking through the castle, desperately trying to wash away an invisible bloodstain. Once the sense of guilt comes home to roost, Lady Macbeth's sensitivity becomes a weakness, and she is unable to cope. Significantly, she kills herself, signaling her total inability to deal with the legacy of their crimes. We observe that the character of Lady Macbeth is full of cruelty and negativity, she could be more favourite to the King Duncan as a wife of a respected general, she could take wealth from the king but he ran in

a hard and cruel way. So we can say that the character of lady Macbeth is full of cruelty.
